The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 6, 10, 15, 21 and 22 stand withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species and invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 4.

Claims 1, 4, 5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Nasu et al 4995898 in view of Collins 5206228.

The rejection of record is maintained.

Applicant's arguments filed on 9/20/04 have been fully considered but they are not persuasive. Applicant argues for synergy but this is not claimed and the argument for a method of plant protection does not negate Nasu/ Collins both protect and provide healthier plants. However, no great patentable weight is given to the argued for method insertion into claim 1, as this claim is a composition claim.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
